PASS KYC VERIFICATION AT BRICKKEN

hacken.io We Make Web3 A Safer Place

2

Welcome to our step-by-step guide on completing KYC (Know Your Customer) verification at Brickken. KYC verification is a crucial process that ensures the legitimacy of users and prevents fraud or illicit activities on a platform. In this guide, we will walk you through the necessary steps to complete KYC verification, which is essential for accessing Hacken Tokenized Equity. By following these instructions, you'll be on your way to securely verify your identity and gain access to exciting opportunities in the world of real-world assets. Let's get started!

List of things you will need to prepare in advance:

Identity Document	Proof of Residence	Personal Tax Number	Webcam/phone
A clear and up-to-date copy of your passport or identity document.	Something to verify your legal address. The platform currently accepts bills, bank		you will need to scan your face for the proof of liveness.

statements, or public documents as a valid proof of residence.
